

Spiral Dance 5-Piece Stage Plan

Spiral Dance are:

Adrienne Piggott – lead vocals
Nick Carter – guitars; didgeridoo; vocals
Paul Gooding – button accordion; vocals
Rick Kearsley – drums
Nigel Walters – bass; vocals

Requirements:

4 x Vocal mics
1 x Instrument Mic
1 x Kick Mic
2 x DI boxes
3 x XLR
1 x Bass Amp
3 x AC Power

Front of Stage

YOUR PA SYSTEM:

- * We ideally need 11 inputs (as shown above).
- * Good monitoring is essential; we prefer 4 monitors with at least 2 separate sends.
- * 31 Band Graphic EQ for 2 sends and front of house...total of 3 EQs if not running in stereo.
- * Reverb effects are essential for vocals.
- * Microphones: we need 4 x Shure SM58 mics (or better) on stands for vocals, boom stands very much preferred. We also require 1 x instrument mic (Shure SM57 or small condenser mic) on a small stand for the didgeridoo and 1 x kick drum mic (Shure Beta 52A or similar), also on a small stand.
- * We need 2 x Direct Injection boxes (DIs).
- * We need 3 x XLR leads (we have our own DI or equipment for these).
- * We need a Bass Amp if travelling Interstate or overseas.
- * We require access to 3 power outlets for multiple equipment, we have our own four board adapters too. We assume you will already have power to the stage for the Monitors.
- * We often travel with our own sound technician who knows our material and mixing requirements, but we will need a crew to set up and pack down the PA.
